

# Research on the Vocational Guidance for Youth

## ABOUT 3,000 PEOPLE SURVEYED

The objective of the research has been to deepen the knowledge about the **current situation of vocational guidance in schools**. The total number of respondents was 2,833, including **students, families and teachers** from **Croatia, Italy and Spain**.

## + TRAINING AND MOTIVATION

**Mothers, fathers and teachers** recognize the **value and need** for professional guidance in schools. They consider that the lack of **teacher training** and the low **motivation** they perceive in students hinder vocational guidance.

## SOCIAL AND LABOR INSERTION

Parents play a crucial role in their children's career decisions. **More than 70% of fathers and mothers surveyed** agree or strongly agree that **improving career guidance** would favour their social and labour market integration.

## CHOICE OF STUDIES

**About 40% of the students are not sure** what factors they should take into account when deciding on **the studies they want to do** to develop their professional future.

## BREAK THE GAP

**65% of teachers** feel that they do not have sufficient **training** to guide their students on **educational and career options**. The research shows that there is a big gap between the **needs of students** and the training of teachers.
